METRO RING NORTH - SEGMENT 4 (SYNTHETIC DEMO DOCUMENT)

Construction Plan

Scope of work: install underground conduit and fiber cable along Route A, including trenching, handhole placement and a splice plan for 24 splice points.

Route length: 4.2 km.

Design summary: 144-count single-mode cable along Route A.

Cable type: G.652.D loose-tube armored.

Splice locations are listed in the splice plan.

Trenching notes

Trench to be excavated to approximately 30 in. along the east shoulder.

Handholes every 300 m.

Permits

Pole attachments approved per city permit (copy on file).

Cable schedule

Route A uses 96-count single-mode cable between handholes HH-01 and HH-14.
