METRO RING NORTH - SEGMENT 5 (SYNTHETIC DEMO DOCUMENT)

Construction Plan

Scope of work: trenching, conduit and fiber cable along Route B, including handhole placement and a splice plan for 18 splice points.

Design summary: 96-count single-mode cable along Route B.

Minimum bend radius: 15x cable diameter during installation and after.

Trenching notes

Conduit to be buried 42 in. below grade along the east shoulder.

Permits

Pole attachments approved under City Permit No. CP-2291 (attached as Appendix C).

Cable schedule

Route B uses 96-count single-mode cable between handholes HH-21 and HH-30.

Test results: OTDR traces and measured loss for all 18 splices are attached as Appendix D.
